WHO THEY ARE

Heaven Furniture Mart is one of Chattogram's leading bespoke furniture brands. They design and craft custom furniture — sofas, beds, dining sets, office pieces — built around what a customer actually wants, not pulled off a shelf. Their pitch to the market is simple: "Designed. Crafted. Customized." They want their landing page to feel like someone just walked into a luxury interior studio — not an online furniture shop.

WHAT THEY SELL

- Living Room — sofas, coffee tables, TV units, consoles
- Bedroom — beds, wardrobes, dressing tables, bedside tables
- Dining — dining tables, dining chairs, cabinets
- Office & Study — executive tables, bookshelves, workstations
- Bespoke / Custom — anything built to a customer's own space, size, and taste

WHY CUSTOMERS CHOOSE THEM

Use these as trust points on the page:

- Free design consultation
- Fully bespoke — built to your space, not mass-produced
- Premium wood & materials, skilled in-house craftsmanship
- Large physical showroom in Chattogram (Agrabad)
- Delivery & installation included
- Easy payment options
- Trusted by hundreds of happy homeowners

THE BRAND VIBE

In the client's own words: this should feel like someone "entered a luxury furniture and interior studio," not an online furniture shop.

Go for:

Warm, editorial, spacious, confident — real photography doing the talking.

Avoid:

Cheap, crowded, marketplace-y, generic template, loud colors, walls of text.

Suggested palette (approximate — match the vibe, exact hex isn't fixed):

	Deep Charcoal-Teal	Grounding dark background
	Warm Ivory	Clean space around content
	Muted Gold / Brass	Small accent only — from the logo
	Deep Brown	Text, grounding tones
	Natural Wood Tan	Material-led accents

Typography:

An elegant serif for headlines (their own brochure and deck both use one), a clean sans-serif for body text, buttons, and contact info.

PROOF YOU CAN ACTUALLY USE

"At Heaven Furniture Mart, we believe furniture is more than just function; it is a reflection of lifestyle, taste, and comfort. Every piece we create is designed to bring lasting elegance into the homes of our clients."

— Abul Kalam Bhuiyan, Managing Director

NEED PHOTOS OR VIDEO?

Heaven Furniture Mart's real furniture, showroom, and team photos live on their social media. Go grab them:

- [Facebook — facebook.com/HeavenFurnitureMart](https://facebook.com/HeavenFurnitureMart)
- [Instagram — instagram.com/heaven_furniture_ltd](https://instagram.com/heaven_furniture_ltd)
- [YouTube — youtube.com/@HeavenFurnitureMart](https://youtube.com/@HeavenFurnitureMart)
- Download whichever photos or clips look best — furniture close-ups, showroom shots, lifestyle images — and use them in your landing page.
- You can touch them up with ChatGPT or any other AI image tool — remove backgrounds, upscale, adjust lighting, crop. Just make sure the final image still looks clean and good quality, not distorted or obviously fake.
- No hard rule to only use these — but real Heaven photos will always look more credible than generic stock images.

WHAT YOUR LANDING PAGE ACTUALLY NEEDS

These are **suggestions, not mandatory sections**. You can add pages and other sections that make the overall website look good.

1. **Hero** — One strong image/line that says who they are in one breath — e.g. "Furniture, Crafted Around You" + one clear button.
2. **Brand Intro** — 2–3 sentences: bespoke furniture + interior styling, from Chattogram.

3. **Why Choose Heaven** — The trust bullets above, laid out fast to scan.
4. **Collections Snapshot** — A few categories with photos — Living, Bedroom, Dining, Bespoke. Not a full catalog.
5. **Bespoke Highlight** — Give this its own moment. It's their #1 differentiator.
6. **Social Proof** — The MD quote, or "hundreds of happy homeowners" + a showroom photo.
7. **One Clear Call-To-Action** — "Request a Quote" or "WhatsApp Us" — repeated, not competing with five other buttons.
8. **Footer** — Address, phone, socials.

WHAT JUDGES ARE ACTUALLY SCORING

- Does this feel like luxury, not a generic furniture shop? (the biggest single factor)
- Is the brand clear in the first few seconds?
- Does it look great on mobile?
- Does it push toward one clear action?
- Is it clean and fast — not cluttered, not slow?

THE ONE RULE

You're not designing for judges. Design for a real customer who's never heard of Heaven Furniture Mart — they should understand exactly what this brand is within 30 seconds.
